# Bon Bon Stools

8 **Bon Bon stools** in two different families (stackable and non stackable) are made from only 9 elements (4 legs of different heights, seats with 2 different diameters - 300 and 350mm, 1 metal joint and 2 types of foot rests).

Stools are in 4 different highs: 450, 500, 600 and 760mm.

**Bon Bon** can be used in public places such as hotels, schools, bars..., as well as private apartments.

Seats are from laminated plywood, legs from oak wood, all metal parts are coated.

**Bon Bon** should be shipped and sold disassembled with instructions and assembling tool (1 inbus key) for reducing transport costs.
